A.T.I.

VOLUME I ISSUE 1

UP FOR GRABS

Two school items need students' advice: "This is your chance to become a star." (D. Thomas)

Name your school newspaper. Its present title, "Working Name", is just as it implies, a working title until a suitable name can be found.

Design your school emblem. The emblem would be used on the newspaper, in the year-book, on school stationery, and on decals. All drawings, sketches and suggestions may be placed in the school "newsbox" before the next publication.

The interest in beginning a school news publication has now been met. This paper is intended to inform, to entertain, and to provide a written voice for all. This will include faculty and people associated with or interested in the school. We also hope to promote interest and good will through activities in the Wooster area.

A part of the Ad-Hoc Committee's Publication Committee, the newspaper is supported by the A.T.I. Administration and faculty. This non-profit paper is now being released bi-monthly, the first and third Monday of the month.

T.O.

MRS. KLEE

One of our new faculty members, Julie Klee, has joined the staff; teaching classes in botany and communications. A graduate of Michigan State University with a bachelor's degree in biology and a Master's in botany, Mrs. Klee worked for NASA at Brookhaven National Lab in New York and spent some time at Cape Kennedy while working on the Bio-satellite Project. She spent several years working in fungal genetics research at Michigan State while her husband was in graduate school. Mrs. Klee now lives in Canton where her husband teaches biology and zoology at Kent State-Stark Campus. Her hobbies include antiques, sewing, and stamp collecting.

"THEY'RE COMING!"

They've finally been ordered, our own ATI window decals. They only cost four bits (50¢), and they will be on sale very shortly. So watch the bulletin board for the time and place a purchase may be made. Show your enthusiasm and school spirit - buy a window decal.

MRS. KLEE

ON BEING FIRST

I am pleased for the invitation extended me to write a few words in the editorial comment for the first issue of a student publication at ATI. Indeed, this is an honor.

Our participation together as faculty, students, and staff in the pioneering efforts such as those in which we are engaged in initiating the Agricultural Technical Institute at Wooster provides us the opportunity to experience a number of "firsts." In this endeavor, each of us continues to be confronted with a number of new situations, different settings and unforeseen circumstances.

There is much to be considered in being first and in experiencing the new. The uncharted and untried possesses challenges to those who dare to be front runners, innovators and pioneers. To the creative and imaginative, to those who realize that only they will pass this way this first time does the here and now present the opportunity to write well the history of the first class of ATI, 1972-73.

Hopefully, each of us engaged in this new educational enterprise will accept the challenge to provide a heritage in technician education of which we will all be proud to leave those who pass this way.

We are proud to have you on our team in agricultural education and look forward to experiencing many "firsts" and new settings together as efforts are expanded to strengthen our program in the academic, student service, administrative, and institutional service areas.

Jerry J. Halterman
Director, ATI

TOBOGGAN PARTY

On Wednesday, February 21, 1973, a party of A.T.I. students are going to Bear Creek, six miles South of Canton. For information about times, cost, and directions contact either Mark Widder, Kim Mizek, Dave Fahrni, or Jerry Hord before Tuesday, February 20. See you then!

JLH

VENDING MACHINES

Questions, comments, and suggestions concerning the vending machines may be made to Ann Symthe. Mrs. Symthe has been employed by Canteen for one and a half years. She services the machines here at O.A.R.D.C. on Monday through Friday. She is at A.T.I. machines from one to four. You can obtain refunds for lost money and bad products at that time. Mrs. Symthe would also like to express her appreciation for the good care the students at A.T.I. have taken in their use of the machines.

SK

STUDENT GOVERNMENT

1-31-73

The discussion at Ad-Hoc meeting ran from sports to a talent show. In the sports line, \$50. has been appropriated for use in the upcoming basketball tournaments. Interest has also been expressed in organizing an interscholastic volleyball game with Wayne General to be held on a Wednesday evening from 7:30 p.m. to 10:00 p.m.

A talent show is scheduled for February 21, in the O.A.R.D.C. auditorium. Sign up sheets are posted, and the first rehearsal will be held on February 14.

School decals are going to be on sale soon. The price will be 50¢; the colors are scarlet and gray.

Reportedly, the newspaper and year-book are off to a running start and they have each been appropriated \$50.

TB

VEGETARIANS SERVED

College of Wooster Food Service will begin a vegetarian program on February 5, in the Lowry Dining Hall. Initially, line two will have one vegetarian and one meat entree served at lunch and at dinner. If enough interest is shown, line two will serve only vegetarian dishes.

Further accent on vegetables during dinner will come from a newly opened salad bar, where students can create their own specialties. If popular, the salad bar will be open during both meals.

The new vegetarian alternative will be operating on a trial basis as the patrons determine its success.

Vegetarian Program

Line two in Lowry:
 Monday-Friday Lunch 11:30-12:45
 Dinner 4:45- 6:00
 Saturday Lunch 11:30-12:45
 Sunday Dinner 4:45- 6:00

NEWS AND SUGGESTIONS!?

There will be a box in the lobby where you can place any news or suggestions that you may have -- bits of technical area news or some unusually interesting situation a professor may have been in.

We, the staff of the A.T.I. newspaper, would like any suggestions that you think would improve the paper. Also tell us what you think about the paper or about having a paper, and tell us what you want in your paper.

You are the students and faculty this paper is for and about. So please put your comments and suggestions in this box. The contents of the box will be read daily. The deadline to get articles in for the next issue is Wednesday, February 14.

Thank you for your cooperation,

The staff.

FIELD TRIPS

Wood Curriculum

February 9. Ohio Forestry Association Convention: Neil House, Columbus. A.T.I. Wood Curriculum booth will be made out of old barn siding and will give information about recruitment and internship possibilities.

February 20-22. Retail Lumberman's Association: Veterans' Memorial, Columbus. A.T.I. Wood Curriculum will maintain a booth.

Soils Curriculum

February 12-14. Cincinnati. Annual meeting of the Ohio Grain, Feed and Fertilizer Association. A.T.I. will man a booth demonstrating cation exchange capacity, pointing out reactions in the soil. Students will meet members of the industry and sit in on meetings.

A.T.I. LOSES IN HEARTBREAKER

Riding on the crest of their recent
victory over the second ranked team in the
city league, the A.T.I. team fell to defeat
Thursday (2-1-73) in the Wooster High
School gym. The Borg Warner team rolled
over A.T.I. tallying 69 points to the 32
marked up by A.T.I.

However, the great spirit exhibited
by our team, merits them our support and
best wishes. The next two games will be
February fifth and seventh at Edgewood
Junior High School.
